Information contained herein is for informational purposes, is subject to change without notice, and is presented "as is." One megabyte (MB) and one gigabyte (GB) equals one million or one billion bytes, respectively, when referring to hard drive capacity. Accessible capacity may vary depending on file size, file format, features and application software.

Why myshare?

myshare is:

- › A network storage server with up to 4 TBs of storage capacity.

myshare can:

- › Backup photos, movies, music and other files.
- › Share content with all computers on the network.
- › Remote access from across the internet.
- › Consolidate storage capacity to be shared with all members of a home or small office.
- › Operate as a storage server for USB drives and printers.
- › Create a common ground to edit and play files from PCs, Macs, Linux, and Unix systems.
- › Archive files for long term storage.

myshare replaces:

- › Externally attached storage
- › Add-on Internal disk drives
- › Removable Media
- › Print Servers
- › Remote Storage
- › Higher cost per GB servers

myshare will go:

- › Anywhere on the network.
- › Lower the cost per GB of storage by archiving files to **myshare**.

Save with myshare:

- › Consolidate storage capacity among all members of a network.
- › Centralize printing with one printer for all networked computers.
- › Plug in current USB drives and turn them instantly into shared storage.
- › Backup and protect all data with RAID 5.

Make myshare wireless:

- › By plugging the myshare into a wireless router, enjoy all features from any room in the office.
- › Configure myshare to be accessible from the Internet to access business documents from the road.

myshare includes:

- › myshare Storage Appliance
- › External Power Supply
- › Network Cable
- › Quick Start Guide
- › Four SATA Hard Drives

smalloffice

Increased Data Protection

- Set RAID 1 to create a duplicate copy of all business documents.
- Use Windows Backup Utility to schedule routine backups for multiple users.
- Centralize business intellectual property to avoid unnecessary data losses.
- Store up to 3 TBs of protected data.

Storage Appliance

- Plug a printer into the USB port and share the printer to all members on the network.
- Set IP status to either Static or DHCP.
- Share files between PCs, Macs and other major operating systems.
- Add capacity to the file server by plugging in a USB external hard drive.

Safe and Secure Data

- Administer User and Group admissions to control security.
- Integrate with workgroup, domain servers and active directory.
- Control access of users by folder.
- Change Admissions to Permissions.
- Control capacity stored by each user.

Easy Administration and Management

- Configure system notifications by email and SNMP.
- Review the system log.
- Easy to use software utility for centralized administration.
- Reboot or shut down system from remote terminal.

digitalhome

Centralize your Digital Home

- Share a printer with all members of the household.
- Plug in USB drives and share content digitally throughout your home.
- Place the myshare under a router, modem or switch to conserve room.
- Use the USB upload button to copy digital pictures to the myshare.

Wireless Digital Home

- Plug the myshare into a wireless router and share without wires.
- Print from any room in the house.
- Listen to music in the backyard.
- Watch movies at a neighbor's house.
- Create scrapbooks while resting in the sun.
- Backup or upload data to or from USB devices with the touch of a button.

Consolidate your Digital Household

- Add on USB drives for additional capacity and share them with all users on the network.
- Share up to 4.0 TBs of capacity between the members of your household.
- Organize movies, photos and pictures in a single location.
- Create private folders and access for each member of the household.
- Use the public folder to share.
- Share between PCs and Macs.

Share with your household

- Share up to 890,000 photos.
- Share up to 960,000 songs.
- Share up to 880 hours Divx HD.
- Share up to 2,000 video games.
- Share up to 1,120 DVDs.
